

THE COMPLETE POWER EQUIPMENT
SOLUTION FOR ALL SEASONSSM

CONCEPT STATEMENT - UNIQUE SELLING PROPOSITION

The AllQuip™ is the Complete Power Equipment Solution for All SeasonsSM. With up to ten attachments, the AllQuip™ provides homeowners with a versatile, self-propelled, ergonomic and year-round system for yard and driveway maintenance. The universal electrically powered unit is environmentally friendly and easily stored.

ALLQUIP™ ATTACHMENTS

POWER SHOVEL

The Power Shovel, with the self-propelled system and heavy duty tires, plows through snow with ease. The 32" steel blade with 15 degree tilt allows for convenient operation and quick snow clearing for driveways and sidewalks.

TILLER

Without tools in seconds, convert the AllQuip™ into a powerful tiller. Specially designed for small gardens, composting, weeding and light ground breaking. Tines are made of heavy duty steel and reach a depth of 5".

AERATOR

The Aerator attachment connects to the front driving axel much like the tiller, but includes a depth controlling wheel to perforate the soil at 2 ½ inches. It is easily attached and helps your lawn breathe and get more nutrients to the grass roots.

POWER BROOM

Clean your garage, driveway or sidewalk quickly and effortlessly with the AllQuip™ Power Broom. The broom is easily attached without tools and is designed to handle all of your cleanup chores, such as dirt, sand, light snow, wood chips or leaves.

DETHATCHER

The Lawn Dethatcher attachment is easily inserted in the front receiver hitch in seconds and provides the user with a powered unit to promote a healthier lawn by allowing water and nutrients to penetrate the soil.

ALLQUIP™ ATTACHMENTS

SPREADER

The Broadcast Spreader attachment converts the AllQuip™ into a powered walk-behind spreader for use with seed, fertilizer, sand and ice melt. Flow adjustment controls ensure accurate spread patterns for any task. Made with a durable poly hopper and corrosion resistant material.

POWER WHEELBARROW

The wagon attachment converts the AllQuip™ into a self-propelled hauler to make your work easier. The Power Wheelbarrow is perfect for hauling firewood, yard waste, leaves, soil, and mulch. It has a capacity of 250 pounds and is made of a lightweight and durable poly molded body.

REEL LAWN MOWER

This classically designed 20" reel mower attachment is lightweight to allow mowing in all terrains. The knife-sharp blades have 8 adjustable heights while the optional bag collects clippings. Includes four heat-treated steel blades.

POWER TRAILER DOLLY

Convert the AllQuip™ into a Power Trailer Dolly by installing the hitch attachment. Move your boat, snowmobile, jet ski or utility trailers with ease. Maneuver your rig into tight spaces without the need of a vehicle while saving your back in the process.

LEAF SWEEPER

Pick up leaves in the spring and fall with ease with the AllQuip™ Leaf Sweeper attachment. The conveniently adjustable sweeper height allows you to collect leaves on lawn, driveway or paths without the noise of a blower.
